Stephen Paulin Joins Orion Risk Management

NEWPORT BEACH, CA - March 20, 2015

Stephen Paulin, CIC, has joined Orion Risk Management as Workers' Compensation Practice Leader. He will continue to provide comprehensive property and casualty and employee benefit coverages. Mr. Paulin comes to the company with more than three decades of extensive experience serving mid-market, privately held companies to reduce insurance costs, while improving risk management outcomes that increase productivity and profit.

"As businesses evolve and exposure to loss in new areas becomes more complex, it is imperative that an insurance brokerage be visionary and innovative. I set out to find a firm that could meet the growing needs of the mid-market companies I specialize in. After much research and several choices, I chose Orion Risk Management because its inventive culture, astute leadership and technical proficiency allow me to provide current and future clients the risk management expertise and coverage they need," says Paulin.

Orion Risk Management, with offices in Newport Beach, Pasadena and Corona, provides Fortune 500 solutions to middle market companies through its property-casualty, workers' compensation, and employee benefits departments. The company's specialty services include risk control, claims management, captive formation and programs specific within key industries including construction, solar, manufacturing and wholesalers.
